MAY TAKE ANOTHER **WEEK FOR TAX BILL**

Republican Leaders Have No Present Hope of Quick

Passage in Senate. Republican Senate leaders conceded today that there was no possibility of passing the tax revision bill this week. They also indicated that there was little prospect of maintaining a quorum for a night session of the Senate tonight.

Senate tonight.

Several majority senators were absent from Washington today, and, as the democrats generally were opposed to night meetings, the plan was to recess late in the day until Monday.

The work on the tax bill is far from finished, and some leaders on both sides of the champer doubt that a final vote on the measure can be had much before next Saturday night.

Immediately upon convening the Senate launched into the capital stock tax fight, having before it the amendment to retain this tax, which the finance committee proposed to repeal on next January 1. As usual, a quorum was maintained for only a few minutes, but Senator Stanley, democrat, Kentucky, forced a roll call, so as to get absentees back into the chamber.

Reed Takes Up Amendment.

Senator Reed, democrat, Missouri pened discussion, taking up the Lodge amendment to the compromise amendment. He said the Lodge plan "should be entitled 'An amendment to exempt holding companies from the capital stock tox'." capital stock tax.

The Missouri senator declared there were only two reasons for the or-ganization of holding companies.

"One is," he said, "to restrain trade and control prices. The other is that those who organize the holding com-

nose who organize the holding companies expect to make large profits speculating in its stock."

In the midst of his address Senator Reed was informed by Scnators Curtis of Kansas, the republican whip, and Watson, republican, Indiana, that Senator Lodge was absent on account of illness, and it was agreed that further consideration of the Lodge amendment should go over the Lodge amendment should go over

The first concrete action of the day was the adoption of a compromise

was the adoption of a compromise amendment striking out the provision imposing a tax of 50 cents on surety bonds and on all policies of guaranty and fidelity insurance, including pol-icies guaranteeing titles to real estate and mortgage guarantee policies.

Senator Calder, republican, New York, offered an amendment to the corporation tax section exempting from the 15 per cent corporation tax corporations "organized exclusively for conceptive home corporation"

amendments offered by Senator Walsh of Massachusetts, democrat, for a graduated tax on the net incomes of corporations. It then adopted the committee amendment providing for a flat tax of 15 per cent on the net income of corporations. The present tax is 10 per cent.

Senator Walsh, author of the two amendments voted down, 33 to 32, said he had been assured by Senators Johnson, republican, California, and Myers, democrat, Montana, who were absent at the roll calls, that they would support his amendment when next presented. Senator Walsh also expects to win over some republicans expects to win over some republicans

The first proposal of the Massachusetts senator was for a tax of 10
per cent on the first \$100,000 of income, 15 per cent on the next \$200,000 or income, 15 per cent on the next \$200,000 and 20 per cent on all over \$300,000, with an added provision that corporations which did not pay an excess profits tax for the calendar year 1920 profits tax for the calendar year 1920 should pay only at the rate of 10 per After this had been rejected. adoption of the committee amendment for the 15 per cent flat tax. They were Calder, Edge, Freling-huysen, Johnson, LaFoliette, McKindey, McNary and Norris. Two demonstrats, Reed and King, voted for the committee proposition.

The fight over estate tax section followed. It led the Senate into a night session, and resulted in the adoption, if to 15, of the compromise agreement to increase the present maximum rate of 25 per cent on all that part of an estate over \$15,000,000 to 50 per cent on all over \$100,000,000.

NEIGHBORHOOD YOUTHS AGREE TO END NOISE AROUND NIGHT SCHOOL

Business High Night School officials have signed an armistice with a small army of youths of the neighborhood, with whom the school is popular, but who are unpopular with students and offiunpopular with students and officials. The terms of the agreement stipulate that if the young men will cease their pranks and disturbances on corners near the school during night sessions, they will be tendered in return for this favor the use of the institution's gymnasium on Friday nights.

Both sides entered into a solemn covenant, and it is expected that scholastic peace will reign during the sessions throughout the winter.

Heretofore, unasked-for quartet selections, solos and group songs have floated through the windows of the night school, while students were endeavoring to decipher the pothooks of shorthand and the intricacles of bookkeeping. The noise has demoralized classes and dismayed officials.

PLAN TO SPEED UP ANTI-BEER MEASURE

Conference Held Over Technicalities Which Might **Block New Regulations.**

While the Treasury Department was planning today to announce soon a definite policy for making available immediately medicinal beer to the sick, supporters of the anti-beer bill in the Senate today laid plans to get speedy action on the conference re-port on that measure as soon as the tax revision bill has been disposed of. A conference was held today be-tween Commissioner Blair and So-licitor Mapes of the internal revenue bureau over technicalities in the new regulations which might tend to delay actual operation of the beer regulations. Commissioner Blair and Secretary Mellon, it is understood, are to take up the possibility of mak-ing immediately available for sale beer for medicinal purposes.

Dr. C. J. Muttart Discusses Its Evils at Session of Mid-Atlantic Branch.

Autointoxication is much worse than illegal consumption of artificial liquor, declared Dr. C. J. "Serious as alcoholic intoxication undoubtedly is," said Dr. Muttart, "if the truth were told there is another form of intoxication responsible for more ill health and mental depravity than alcoholic intoxication—namely, autointoxication, or self-poisoning. This is due to the absorption of bacterial toxins into the blood stream from the intestinal tract owing to the failure of the organs of elimination to throw out the waste material promptly.
